

# HKUST-CSIT5910-Background Survey

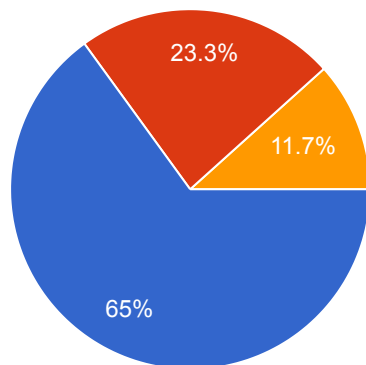

60 条回复

发布分析结果

## Linear and Polynomial Regression

 复制

(60 条回复)

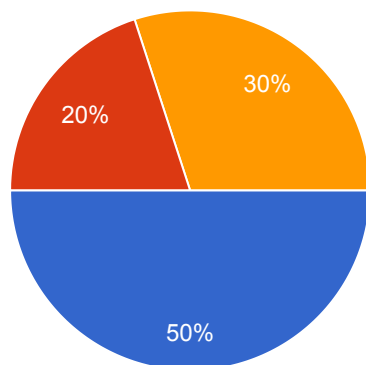

- I have studied it in a credit-earning course
- I have studied it by myself but not in a credit-earning course
- Otherwise

## Logistic and Softmax Regression

 复制

(60 条回复)

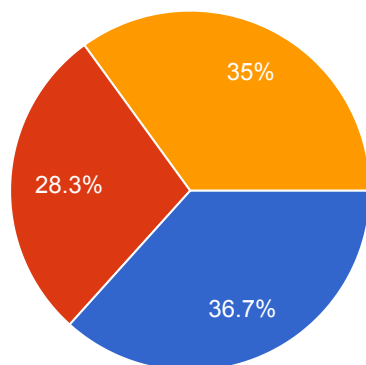

- I have studied it in a credit-earning course
- I have studied it by myself but not in a credit-earning course
- Otherwise

## Generative Models for Classification

 复制

(60 条回复)

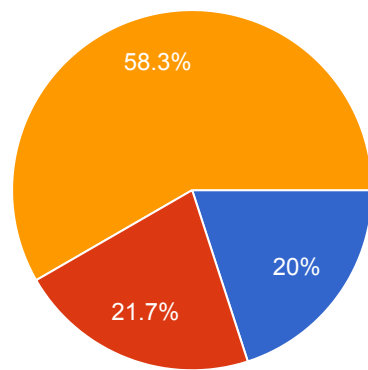

- I have studied it in a credit-earning course
- I have studied it by myself but not in a credit-earning course
- Otherwise

## The Bias-Variance Decomposition

(60 条回复)

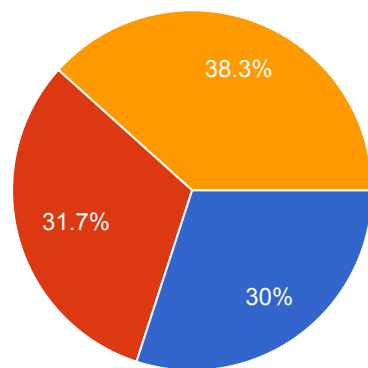

- I have studied it in a credit-earning course
- I have studied it by myself but not in a credit-earning course
- Otherwise

## Deep Feedforward Networks

(60 条回复)

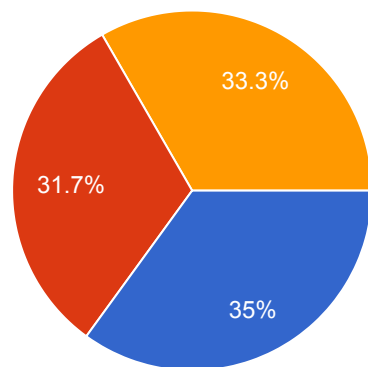

- I have studied it in a credit-earning course
- I have studied it by myself but not in a credit-earning course
- Otherwise

## Convolutional Neural Networks

(60 条回复)

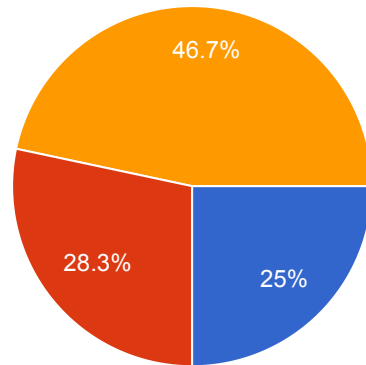

- I have studied it in a credit-earning course
- I have studied it by myself but not in a credit-earning course
- Otherwise

## Recurrent Neural Networks

(60 条回复)

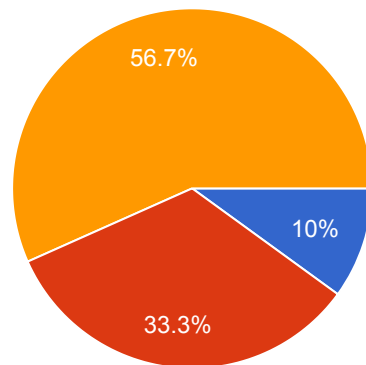

- I have studied it in a credit-earning course
- I have studied it by myself but not in a credit-earning course
- Otherwise

## Transformer and BERT

(60 条回复)

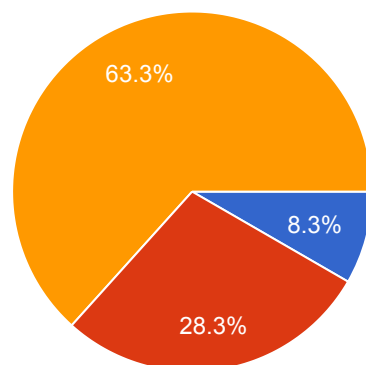

- I have studied it in a credit-earning course
- I have studied it by myself but not in a credit-earning course
- Otherwise

## Large Language Models

(60 条回复)

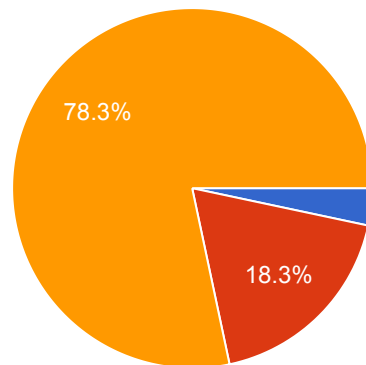

- I have studied it in a credit-earning course
- I have studied it by myself but not in a credit-earning course
- Otherwise

## Variational autoencoders

(60 条回复)

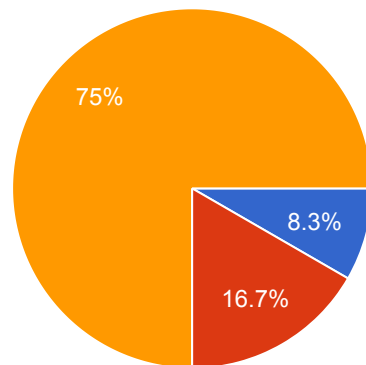

- I have studied it in a credit-earning course
- I have studied it by myself but not in a credit-earning course
- Otherwise

## Generative adversarial networks

(60 条回复)

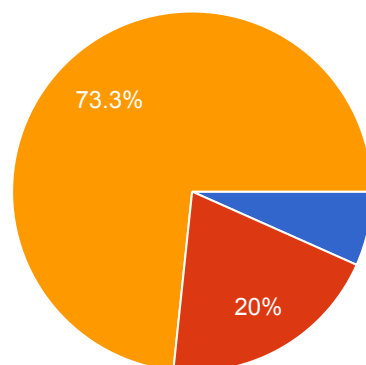

- I have studied it in a credit-earning course
- I have studied it by myself but not in a credit-earning course
- Otherwise

## Introduction to RL

(60 条回复)

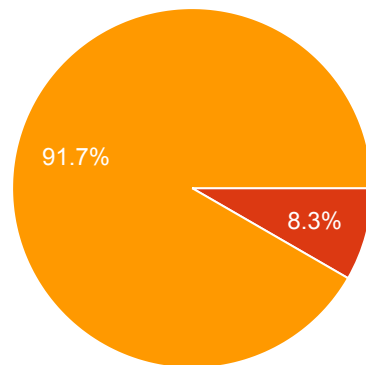

- I have studied it in a credit-earning course
- I have studied it by myself but not in a credit-earning course
- Otherwise

## Value-Based Deep RL

(60 条回复)

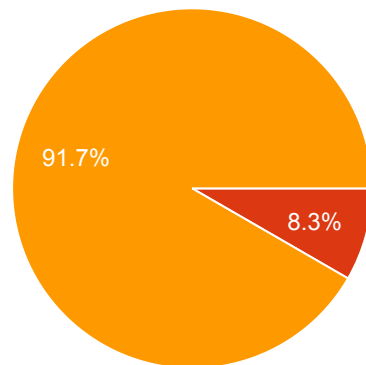

- I have studied it in a credit-earning course
- I have studied it by myself but not in a credit-earning course
- Otherwise

## Policy-Based Deep RL

(60 条回复)

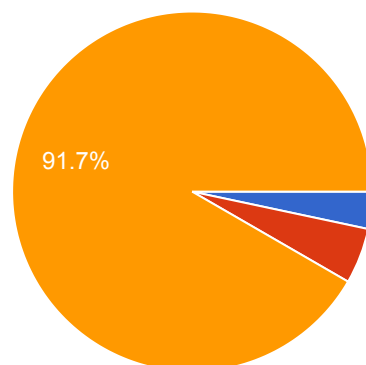

- I have studied it in a credit-earning course
- I have studied it by myself but not in a credit-earning course
- Otherwise

## Adversarial Attacks

(60 条回复)

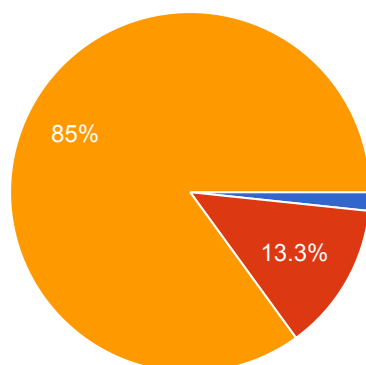

- I have studied it in a credit-earning course
- I have studied it by myself but not in a credit-earning course
- Otherwise

## Explainable AI

(60 条回复)

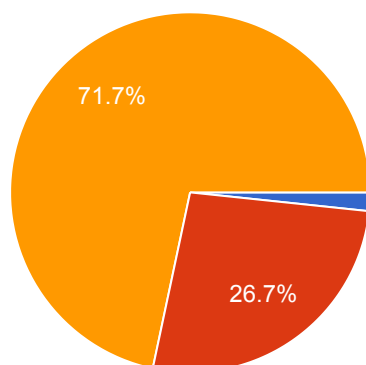

- I have studied it in a credit-earning course
- I have studied it by myself but not in a credit-earning course
- Otherwise

## Diffusion Models

(60 条回复)

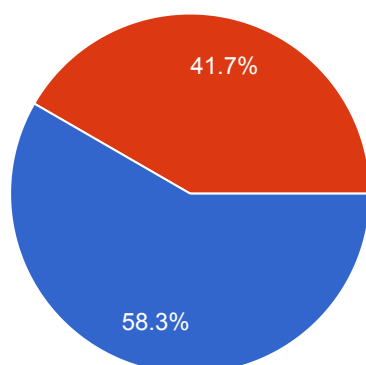

- I have studied it in a credit-earning course
- I have studied it by myself but not in a credit-earning course
- Otherwise

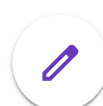

## • Python

(60 条回复)

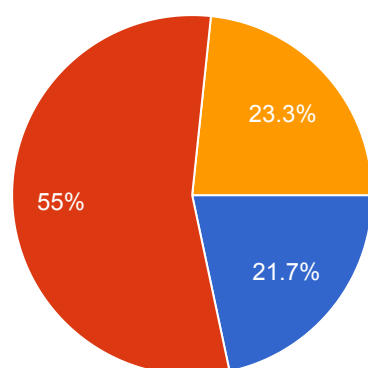

- I have studied it in a credit-earning course
- I have studied it by myself but not in a credit-earning course
- Otherwise

## • Pytorch

 复制

(60 条回复)

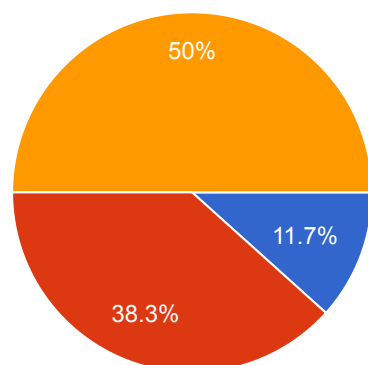

- I have studied it in a credit-earning course
- I have studied it by myself but not in a credit-earning course
- Otherwise

## • Tensorflow

 复制

(60 条回复)

- I have studied it in a credit-earning course
- I have studied it by myself but not in a credit-earning course
- Otherwise
